

December 2nd, 2025**Mr. Tim Dyck – President**DaLee Dust Control Inc.
350 Jones Road
Stoney Creek, Ontario L8E 5N2**Re: Liquid Calcium Chloride Price Increases 2026**

OxyChem is providing notification that is increasing its prices for LIQUIDOW Technical Grade Calcium Chloride by 5% effective January 1, 2026. Our cost structure in producing Calcium Chloride and distributing it into the North American market continues to face mounting pressure caused by logistics, energy, and labor cost increases, along with continued overall weakness in global supply, limiting imports entering the North American markets.

We understand that price increases are difficult to manage, and we appreciate your understanding and support of OxyChem and strive to be your Partner of Choice® for your Calcium Chloride needs.

Sincerely,

Stephen Bushell
Executive Account Manager
